Matoesian Resigns As Attorney For Pontoon Beach

The resignation of village attorney Robert Matoesian was accepted Thursday night by the Pontoon Beach village board of trustees, who in other action decided giving approval to 50-year gas and electric franchises with Illinois Power Co.

Mr. Matoesian, who has moved his law offices from Madison to Collinsville, will continue to serve the village until a new attorney can be found. He has been serving without salary or fees.

The board tabled the two franchises until it can be determined how grade levels are to be established for streets and alleys. Matoesian pointed out the village has no funds and is without the services of an engineer.

The Ordinance Committee is to confer with Illinois Power Co. officials to determine if the firm's engineers will give assistance.

The proposed electrical franchise specifies that the village is to provide the utility firm with grades for streets and alleys at the event of excavations to install conduits.

The building was vacated when the new post office at 24th street and Madison avenue was opened during the fall of 1963. The school district received the building for nothing but has agreed to remodel it.

The structure will be used for special education classrooms, storage and related school work.

Prospectus On Regional Planning's Authorized

Required In Bi-State Area To Get Federal Highway Funds

Representatives of Illinois and Missouri governmental agencies in the metropolitan St. Louis area authorized drafting of a tentative prospectus for cooperative planning at a meeting held Thursday afternoon in St. Louis in the office of the Bi-State Development Agency.

Appointed to draw up the prospectus were T. H. Mikesell, executive director of the Southwestern Illinois Metropolitan Area Planning Commission; Leo B. Oberneufmann, St. Clair County supervisor; Robert B. Jones, St. Louis planning director; and Dr. R. Scherer, Jefferson county planning director.

The prospectus is to be completed within three weeks after which copies will be sent to the 13 members — six from Illinois, six from Missouri and one from Bi-State Agency — of the Metropolitan area working committee for planning coordination.

The working committee was appointed following a meeting Nov. 19 of political leaders from both sides of the river.

It was emphasized that there is no commitment by any governmental agency in the bi-state area, which encompasses Madison, St. Clair and Monroe counties in Illinois, and the city of St. Louis, St. Louis, St. Charles and Jefferson counties in Missouri.

A week to 10 days will be given the working committee to study the prospectus, after which there will be a meeting to approve, reject or alter it. At that point, the major political subdivisions of the bi-state region will be asked for their support.

Primary aim of the program is to enable the Illinois-Missouri metropolitan region to comply with a new federal law which requires a "comprehensive and continuous planning process" by July 1, 1965, in order to qualify for federal highway funds. Since most highways built with 90% federal funds, unless there is a regional planning process under way by the federal deadline all new highway construction will cease.

In drafting the prospectus for the bi-state working committee, primary questions to be answered

Theft charges were placed against two men yesterday in connection with the theft of 125 pounds of meat from a cooler at 1200 (rear) Madison avenue, owned by Schermer Bros. Market.

Released on \$1000 bonds for hearing Feb. 8 were Harry Wallace, 36, of 2055 Cleveland blvd. and Harvey Puley, 40, of 1960 Third street. Wallace was arrested Saturday night as he fled on foot through the 1200 block alley between Grand and State street, while Puley was taken into custody at his home last Saturday night.

Madison police said five boxes of meat including beef flanks, bones, soup meat and chittlings, were recovered. Both men gave statements admitting the theft. Puley, however, said he had discovered there was no lock on the cooler, which is across 12th street from the market. He asked Puley to help him haul away boxes of meat that they planned to sell.

Boy, 16, Killed In Freak Crash; Car Being Towed

A freak traffic accident at 2 a.m. Saturday at Second street and Cambridge avenue took the life of Anthony Cornel Rogenski, 16, of 1725 Elizabeth street, a Madison high school freshman.

Police said the boy was steering an auto which was being towed by another car operated by his step-father, Bernard Barczewski. As the two vehicles descended the McCambridge road, moving north, the car being towed went out of control and whipped around, crashing into a wooden utility pole.

The boy's mother, Mrs. Ureva Barczewski, 56, was a passenger in the right front seat of the auto he was guiding. She suffered injury to her forehead and shock and was admitted to the hospital.

Barczewski said the auto his stepson was steering had been purchased only a few days earlier and had stalled about Route 203 outside East St. Louis as the family was returning home from a visit with relatives.

The step-father walked home for the other auto, and the accident occurred as the stalled auto was being pulled with a chain.

It is believed the boy was attempting to start the auto on the frozen road. The left side of control, passing his step-father's auto and whipping it around. The left side of the stalled, two-door auto struck the pole.

The youth, a native of Granite City, also is survived by his father and step-mother, Mr. and Mrs. Bernard Rogenski, Granite City; a step-brother, Charles Parker, Kanakee, and a two-step-sister, Mrs. and Mr. (Linda) Buzick, Hayward, Calif., and Mrs. Joseph (Mary) Gaynor, Chicago.

Services will be held tomorrow. An obituary notice appears elsewhere in this issue.

Viaduct Concrete Work Continuing In Venice

Additional concrete was poured during a warm weather last week, resulting in the necessity to limit traffic on the Broadway viaduct in Venice for longer than had been scheduled.

It may be possible to complete all of the concrete work this winter, so that once the viaduct is fully opened the only remaining task will be blacktop surfacing this spring.

Instead of being removed last week, wooden barricades and steel barrels remain on the viaduct, restricting traffic to a single lane in each direction. The project has included removal of the concrete on the 20th street bridge, which is being replaced by concrete.

Concrete will be damaged or shouldered aside by passing vehicles on frequent occasions, Venice police report.

Eligible For Funds

The potential rivalry between the two sides of the river was brought into the open by Illinois and Missouri representatives of the working committee Thursday afternoon.

It was the consensus of opinion that each city, county and state area must be concerned with its own welfare, but overall cooperation also is vital if it is to accomplish its own aims.

"At the same time, it is imperative that we have a framework for cooperation that will allow everyone to do his own job. There must be guidelines and uniformity on basic things; for example, designation of residential, business, industrial, park and other areas should be coded alike. Also, it does no good for the states to plan highways to fit certain traffic patterns if, after completion, adjacent developments in local communities change the traffic needs. There is a vast difference between the industrial and use or high rise apartments along highway complexes."

Members of the working committee did not minimize the complexities of bi-state cooperation, but several pointed out that the problem is not unique in this area. Similar joint studies are being conducted in many metropolitan regions. John A. Shanahan, Illinois highway planning engineer, said a preliminary report was last recently developed for a tri-state area embracing Ohio, Indiana and Kentucky.

Key Is "Compromise"

James R. Turner, Missouri Highway planning engineer, also told the group that regional planning is underway in the Springfield and Kansas City areas, where "conflicts are being avoided by consultation, where all factors on a local and area level are being discussed thoroughly, and where a central agency with a small staff is assigning certain tasks to cooperating cities for the best interests of all concerned."

"Probably the key word is 'compromise,' he said, "and all realize compromises must be achieved for their own selfish interests."

One of the essential ingredients in carrying out an effective program planning cooperation is financing. It was agreed, and the highway engineers of both states pointed out that Bi-State Agency is the logical—if not the only—legal vehicle for federal aid.

The working committee members further agreed that nothing could be accomplished in regional coordinated planning unless all governmental agencies in the area participated and gave support to it.

Attending the working committee meeting from the Illinois sector, in addition to Mikesell, Shaud and Oberweiss, were George Wahnis, South-

Thomas, speaking on exceptional children, said that education was only as good as it meets the needs of every child and that the field of special education not only takes care of the mentally handicapped but also the physically handicapped.

Wittvrong told the group that adult education was rewarding for both the individual and the community. He said that while in 1960, more than 13,000 adults in Granite City had less than a high school education, many adults now are taking advantage of night classes to further their education.

James Hastings, PTA president of the host school, welcomed the council and guest speakers. Homer Jackson, area council president, presided.

At-Large Election

Meanwhile the State Senate today resumed its debate on an at-large election for members of the State House of Representatives. The House last week passed a bill in which Democrats and Republicans would limit their candidates to not more than 18 to assure a majority representation.

Some Republican senators maintain it is illegal as 177 seats are available and each party should be able to nominate its own candidates. The candidates are to be nominated at party conventions on June 1 at Springfield. A conference of representatives of the House and Senate is expected to be called to iron out differences in the state.

There were no new filings in Springfield for Congress nor for delegates and alternates to national conventions from this district. Republican candidates for president are Sen. Barry Goldwater and Lar "America First" Daly. No petitions had been filed for a Democratic presidential nominee.

Ward Found Guilty Of Murder, Case Appealed

A circuit court jury returned a guilty verdict Thursday night against Joseph Ward, 51, in the murder of his wife last August near the Fairmount race track. The case was immediately appealed.

The jury deliberated only for about an hour and a half in the hotly contested murder trial of the 51-year-old New Orleans, La., stable man. The prosecution called 25 witnesses to testify, while the defense came up with 15.

Ward, who was an employee of the Bill Johnston stables at the track, was accused of fatally beating his wife and then stuffing her in the trunk of his car. He later showed the body to an associate. The case was prosecuted by Joseph Bartylak, chief assistant state's attorney. It was the first murder case to be heard by Judge Austin Lewis, new associate circuit judge.

THIS I BELIEVE

These articles are intended to be an exposition of the truths taught by the scriptures. If this exposition incidentally contradicts what some person or church may believe, that is of secondary importance. The apostles are dead, but the scriptures contain all the fundamentals sufficient for our salvation. United Pentecostal Church always cite book, chapter, and verse. For every fundamental belief they rely on for salvation. Even the minister is held to the scriptures, and must cite the ground for his belief. If the question is about the virgin Mary, repentance, water baptism, the Holy Spirit, the Godhead, holiness, the communion, marriage, meats, confession of sin, tithing and offerings, or any other fundamental question, United Pentecostal Church is fully prepared to support each and every distinctive by scripture.

Without any obligation to trust in church traditions, United Pentecostal Church accepts or rejects such traditions as will on the basis of whether Jesus or the apostles said the same things. For this reason anyone can be sure that he is right, since he can refer easily to the same scriptures cited by us. But when you are forced to trust the mere word of those who arose after the Lord and the apostles, you may go way off from the ways of the Lord. Martin Luther turned the people back to the word of God. He may not have understood all that was to be learned later, but he sure did set millions of religious people free from religious misunderstanding. It is hoped that these articles will further enlighten the human spirit from thought control and superstition.

Warriors Trounce Redbirds After Losing To Maroons

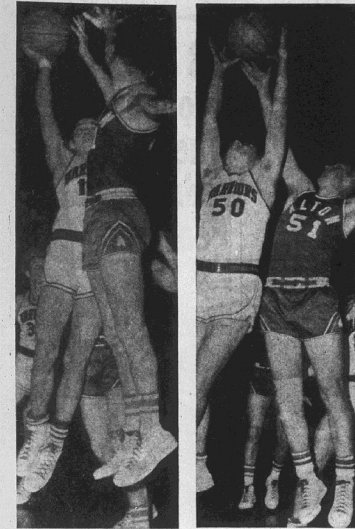

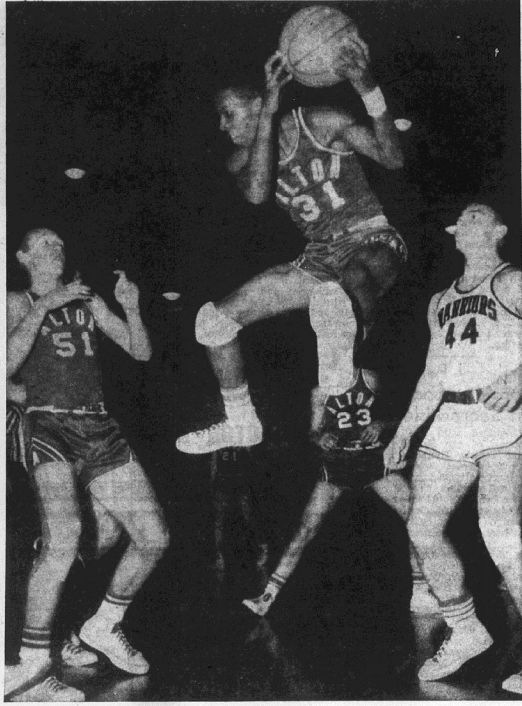

Photo by J. C. Richardson

WARRIORS WHIP REDBIRDS. In left photo, Granite City's Larry Lilley—with injured right wrist heavily taped—pumps in one of his eight field goals in the 82-72 victory. He is guarded by Alton's Dave Wilson. Warrior in background is Jim Warren. In photo second from left, Mike Rousseau (50) grabs a rebound from Don Milyer (51) in first-quarter action. At right, Alton's scowling Lemondue Jarrett (31) leaps high to snatch a fourth-quarter rebound as teammate Miller (51) and Warriors' Joe Hiles (44) look on. Alton rallied in the fourth period but Granite City's early lead was too much to overcome.

Injured Lilley Sparks 82-72 Win Over Alton; Setback Dims Chances

For a guy who was slated to be on the bench, Larry Lilley scored a lot of points for the Granite City high school basketball team over the past weekend.

He had 38 points in courageous performances in the Warriors' 54-48 loss at Belleville Friday night and 82-72 victory over Alton here Saturday night.

The slender senior played with his sprained right wrist, injured last week at Shelbyville, supported by tape. He came off the bench in the second quarter against the Maroons and scored 12 points. Then he totaled 26 the next night against the Redbirds.

As Coach Andy Sullivan said: "Lilley's better with one hand than a lot of players are with two."

With the 38 points, Lilley maintained his season scoring pace of 19 points per game—one of the best averages in the area.

Out Of Running. Unofficially, the loss at Belleville virtually doomed the Warriors' chances to overtake Collinsville for the Southern Conference championship and dealt a sharp blow to hopes of an undisputed second-place finish.

Collinsville is 8-0 in league play with Belleville at 6-2 and Granite City at 5-3. Each team plays 12 conference games.

Should Collinsville beat Belleville Friday night, there is a strong possibility that the Maroons and Warriors will tie for second place.

At Belleville Friday night, the Warriors kept close throughout the game. The score was tied 33-39 after three quarters and it wasn't until the final moments that the Maroons clinched the victory.

It was free throws that hurt the locals, who outscored Belleville in field goals 20-19 but made only eight of 17 free shots.

The Maroons sank 15 of 24.

Jim Warren tied Lilley for Granite City's second-highest 12 points. For Belleville, all-state candidate Della Gierman hit 16, Jay Westcott hit 15 and Neal Holliday added 10. Belleville led in rebounding 26-22 with Mike Rousseau, Elton Hall and Warren grabbing off a half-dozen each for the Warriors.

Opposite Situation. Against Alton, it was just the opposite in the free throwing department. The Redbirds led in field goals 20-28 but made only 12 of 21 free shots while the Warriors sank 26 of 32.

The final score was not indicative of Granite City's wide lead throughout most of the contest. The Warriors led 16-12 in the first period but led 27-21 in the second and after three periods held a 64-44 lead.

Of Lilley's 26 points were on free throws, as he missed only two foul shots. From the field he hit eight of 20 attempts.

Hal hit his highest total of the season—21 points—and Warren topped in with 19 points, with top scorer George Terry sidelined with a back injury, was led by Della McGinnis' 19.

In junior varsity action, Belleville won 86-66 but the young Warriors downed Alton 64-44. High scorers for Granite City were Elmer Wortham (19), Virgil Williams (17) and Larry Ripka (13), all against Belleville, and Kambarian (20) and Joe Hauptman (19).

Madison Express Clicks By Cahokia And Midwestern Title Looms Nearer

Madison's championship express wobbled a bit Friday night passing through Cahokia but fortunately stayed on the track and is now better than halfway toward its destination.

The Trojans pulled out a 58-53 triumph in their crucial game with the host Comanches and took a big jump in the direction of the Midwestern Conference basketball championship. With each team playing 10 conference games, Madison is 6-0 and second-place Cahokia 2-1.

Cahokia is tabbed as the only team with enough talent to overhaul the locals. Clive Memorial of Bethalto, beaten easily by Madison earlier, is third with a 3-2 record, followed by Highland 2-2, Dupu 2-5 and Roxana 0-5.

The victory train, which has chugged to six straight for a 12-3 overall record, stops off at Jerseyville tomorrow night for Granite City PRESS-RECORD Page 6 Mon., Jan. 27, 1964

non-conference battle. After that, the Trojans are idle until Feb. 7, when they go to Roxana.

An Even Pace. Madison's secret of success was in consistency. The Trojans scored 14 points in each of the first three quarters and 16 in the fourth. By contrast, Cahokia was fouled and converted the free toss for a 34-33 edge with 2:45 left in the third period.

The score was tied twice before the quarter ended but, after Gary Skinner scored to give the Trojans a 40-38 edge, they never again fell behind.

Cahokia got as close as 53-51 late in the game but four free throws gave Madison a 57-51 advantage with 1:24 remaining and a still effectively ran out most of that time.

In the junior varsity tilt, Cahokia zipped to a 62-38 victory behind Dave Wilks' 17 markers. For Madison, Victor McLaughlin scored 13.

second quarter and closed the Madison lead to 28-24. Then in the third period, they caught up.

Stein Hits 3-Pointer. A three-point play by 6-5 pivotman Tom Stein finally put Cahokia ahead. He hit a jump shot, was fouled and converted the free toss for a 34-33 edge with 2:45 left in the third period.

The score was tied twice before the quarter ended but, after Gary Skinner scored to give the Trojans a 40-38 edge, they never again fell behind.

Evenenden's Pin Gives GC Matmen 11th Win

Heavyweight John Evenenden pinned his Matmen, 11-0, Saturday afternoon to give the Granite City Warriors a tight 24-17 victory in a high school wrestling match here.

The Warriors held a slim 19-17 lead before Evenenden stopped Carl Boyun in 5:32 of the final bout. The Warriors have an 11-1 record in dual matches this season and travel to East St. Louis for a Southwestern Conference battle tomorrow night.

Mehville won the junior varsity competition 24-14, lowering Granite City's record to 7-2. For the young Warriors, Mike Genova won by a fall in the 145-pound division with Bob Finley (120), John Kozak (127) and Frank Jernigan (180) taking decisions.

Eight local jayvees lost decisions. They were Rich Costello (85), Bill Badgett (103), John Brooks (112), John McMillan (133), Gary Ellis (138), John Jernigan (154), Gary Eads (165) and Denny Bell (heavyweight).

Venice At Bunker Hill In Crucial MCM Duel

They're the Red Devils—not the Redcoats—but no matter, the Minutemen would like to beat them at Bunker Hill anyway.

The old Venice high school basketball team will invade the Bunker Hill gymnasium tomorrow night for a game that may decide the Madison-Clinton-Macoupin Conference championship.

Black, who scored 12 points in that game, is still out after undergoing an appendectomy in December.

Aviston Falls 77-48. The Devils stretched their MCM record to 4-1 and 11-4 overall Friday night with a 77-46 triumph over last place Aviston at Venice. Bunker Hill, idle since being knocked out of the Macoupin County Tournament Wednesday night, is first in the conference at 5-1 and stands 10-5 overall.

When his regulars looked flat in the first six minutes against Aviston, Olenfort ran in his reserves for the remainder of the half. They pulled to a 35-26 halftime lead.

Then the starters returned in the second half to outscore the Devils 40-20. Venice made 46% of its field goal shots, including 56% in the second half.

Robertson Hits 30. When Olenfort brought in his reserves, he allowed hustling senior John Robertson to stay in the game. He responded with 17 points in the first half and ended up with 30—highest individual total for the Devils this season.

Rich Essington added 13 points. For Aviston, now 0-6 in MCM play, Ken Stricker hit 17 and Bill Heiman had 15. In the layup game, Venice took a 40-24 decision behind Greg Puent's eight points.

Chief threats to the Devils tomorrow night figure to be the Minutemen's one-two scoring punch of Mike Morris and Dave Bausch, both averaging about 15 points in MCM games.

Wood River, Alton Enter New Tourney At SIU-Carbondale

A dozen teams, including two from the Southwestern Conference, have agreed to participate in the new 16-team holiday basketball tournament next season at Carbondale.

The Southwestern teams are Wood River and Alton. Others are the host school, Metropolis, Alton, Clinton, Evanson, Jacksonville, Sparta, Decatur, Effingham, Pinckneyville and West Union.

In addition, Cahokia of the Midwestern Conference and Harrisburg have tentatively agreed to enter. If those two schools follow through, only two spots will remain to be filled in the double elimination tourney.

The tournament will be held between Christmas and New Year's at Southern Illinois University's new 10,000-seat fieldhouse. Eventually, the tourney is expected to rival Central's annual classic in excellence.

Locally, Granite City again will compete in the Pontiac tourney and Madison will return to the East St. Louis meet.

Madison Cagers 10-0 After Beating Central

Outscoring Central's Indians 92-61 in the third quarter, the Trojans won 35-19 after leading eighth quarters defeated the Granite City school 44-39 Thursday night at the Central gymnasium.

Central led at halftime 24-23. High scorers for Madison were Gary Luck (10), Al Gasper (11) and Bert Armour (7). For Central, it was Mike Dochast (13), Douie Jones (10), Norm (13), Popmarkoff (9) and Ken Jensen (7).

It was Madison's tenth victory without a loss.

In the seventh game battle, Olenfort won 35-19 after leading 9-7 at the half. For Madison, Dale Clinton hit 13 and John Watson scored six, while Central's Rich Thompson tallied seven.

Fouls Hamper Lincoln Rams At Brooklyn

Lincoln's Rams, hampered by foul trouble, were defeated by the Lovejoy Wildcats 65-61 Friday night at Brooklyn.

Three key players on the Vence team fouled out in the fourth quarter—guards Alvin and Calvin Dixon and Percy Dillon, who scored 18 points.

The Dixon brothers were in danger of disqualification early in the game and Coach Stan Lynch was forced to keep both on the bench for better than half the game.

With a makeshift backline, the Wildcats press became effective against the Rams and after a 32-32 halftime score, the Brooklyn team gained the advantage in the second half.

Lincoln held the edge in field goals 25-24 but trailed in free shots 17-11. The Rams hacked out 27 fouls.

Backing Dillon's output of 18 points was Rich Jackson, who hit 15. Virgil Alford was next for the Rams with 11 points.

The Rams had beaten the Wildcats earlier this season 58-45 and Lynch was understandably disappointed—it was Lincoln's first loss to the Brooklyn school in eight years.

Lincoln, now holding a 2-8 won-lost record, is idle until Feb. 4, when Kinloch, Mo., will call here.

\$3400 From Local UF**
An allocation of \$3400 from the Tri-Cities Area United Fund has been received by the Illinois Children's Home and Aid Society, a privately-supported, non-sectarian, statewide agency caring for dependent boys and girls of all ages.

Rev. M. L. Mace of Wood River, who made the announcement, also said three Granite Cityans are on the society's board of directors for the Alton District. They are Mrs. H. F. Huxel, and a Mrs. H. E. Luaders, new members, and Milton Morris.

Tracing the history of the society, Rev. Mace said it was founded by Rev. Martin Van Buren Van Arsdale of Green Valley, Ill., in 1883. He had been long troubled by the desperate plight of dependent children who were forced to live with the insane, the blind and the crippled.

Today the society cares for dependent children by finding good adoptive homes. For those not legally adoptable, the society provides a foster home until he can return to his own home or becomes self-supporting.

The Alton District receives its major supports from the Tri-Cities, Alton-Wood River and Edwardsville-Glen Carbon United Funds.

Granite City firemen answered more alarms in 1963 than in 1962 but cut fire losses by more than 50%, the annual report by Fire Chief Elijah King showed last week.

Fire losses last year amounted to \$100,238, compared to \$233,521 in 1962. The per capita loss was reduced to \$2.50 from \$3.50 in 1962, when there was a disastrous blaze at Woodrome Oldsmobile agency.

Of the 507 alarms answered last year, 486 were fire calls, up 42; 11 were false alarms, down one; and 19 were emergency in-hall calls, down one.

In responding, the trucks traveled 1790 miles, an increase of 64. Firemen raised 570 feet of ladders, laid 57,432 feet of hose and ran pump engines 496 hours. In 1962, firemen raised 950 feet of ladders, laid 53,342 feet of hose and pumped for an identical 496 hours.

In addition, the department answered 33 alarms at industrial plants with no loss estimates available, with the exception of a \$25,000 blaze at the Monroe street plant of Air Products Corp. which was included in the loss figure.

Fire Chief King reported the city was paid \$250 for three out-of-town alarms and also received a \$250 reimbursement from Reilly Tar & Chemical Corp. for four sections of hose damaged by tar. The annual fire protection fee paid by Reilly Tar to the city was \$200.

Church Group Seeks Civil Rights Action

The social education and action committee of the Madison St. Clair Area Council of Churches has set up a program of civil rights which it is asking the 400 Protestant churches in the two counties to adopt.

Announcement of the program is being made by Rev. William Sill, Collinsville, chairman of the committee. Among the committee members is Rev. Robert J. Baumann, pastor of St. Peter E&R Church here.

The committee is asking church members in the two counties to do the following: "Examine your position concerning the rights of all citizens, against the background of your Christian faith."

"Speak honestly and boldly to fellow men concerning the need for brotherhood and justice, here and now."

"Write letter to representatives in Washington urging them to enact strong civil rights legislation during this session of Congress."

"Pray for persons undergoing racial crisis."

"Support responsible Negro leaders and publicly acknowledge that the granting of the rights that belong to free men has been too slow in coming."

"Present a living witness to Jesus Christ by welcoming all men into the fellowship of your home, church, place of work and neighborhood."

Triple Event Observed At Annual Industrial Meeting

A triple event was observed at Thursday night's annual dinner meeting of the East Side Manufacturers' Association, held at the Missouri Athletic Club in St. Louis.

It was the 50th anniversary of the association, the new name of Manufacturers' Association of the Tri-Cities was officially adopted, and G. W. Hoelscher, general manager and secretary for 28 years, formally retired and turned the office over to his son and successor, William F. Hoelscher.

A special brochure commemorating the association's golden anniversary noted that the original 22 members were organized primarily as a traffic group, with offices in East St. Louis. In 1920, the association was incorporated and moved its headquarters to Granite City, where it has been since.

Fire destroyed most of the records in 1956, but among the companies and men prominent in the association at the time of the move to this city were the American Car & Foundry Co., S. S. Eagle, American Steel Foundries, Ed Walcher, Commonwealth Steel Co., A. T. Money, Howe Safety Appliance Co., A. T. Howe, Hoyt Metal Co., E. S. Thompson, Kettie River Co., H. S. Social Security Numbers Required On Tax Forms

The law now requires tax payers to list their social security numbers on their Federal income tax returns. If both have income, husband and wife should list their numbers on a joint return. If only one has income, only his number is required.

District Director Jay G. Philpott of the Internal Revenue Service said some returns are being filed in which one or both social security numbers are omitted. "Along with checking other entries on the return, tax payers should double check to make sure that social security numbers are complete and accurate, he said.

"If you do not have a number, ask the nearest Internal Revenue office for application Form 3227."

Lutheran Merger Noted At Hope With Visitors

Merger of the National Evangelical Lutheran Church with the Lutheran Church-Missouri Synod which occurred Sunday had a special significance at the Hope Lutheran Church, Wabash and Garfield avenues.

Mr. and Mrs. Urho Salminen of Ely, Minn., members of the NELC, a Finnish Lutheran body, were guests at the local church as Missouri Synod churches across the nation took note of the merger with special prayers of thanksgiving.

Salminen, a retired forestry worker and now a guide for the northern Minnesota fishermen, has visited this area in other years, and the couple now is visiting the Albert Froelich family here.

The NELC, with about 100 congregations and about 10,000 members, is now a part of the Lutheran Church-Missouri Synod of which Hope Lutheran is a member.

Rev. Alfred Bied, pastor of the Hope congregation, commented: "We have enjoyed having the Salminens with us in previous years, but this was an especially happy coincidence that this visit took place at this time."

Oriental Glamor—Plus Top Value

For the smart homemaker with an eye to her budget, chicken is a wise buy any time of the year. Dollar for dollar, chicken is the best value of all leading meats. But as every good cook knows, thrifty foods can be exciting and chicken is always a treat. You can prove the point with Crisp Oriental Chicken. It looks like fried chicken and has the same crispness, but it is baked for convenience. The chicken pieces are dipped in evaporated milk, rolled in seasoned corn-flake crumbs, and baked in a shallow pan lined with heavy-duty aluminum foil. Chews for Crisp Oriental Chicken!

Crisp Oriental Chicken
1 broiler-fryer chicken, 1 teaspoon salt
1/2 cup corn flake crumbs, 3/4 teaspoon pepper
1 cup evaporated milk, 1/2 cup evaporated milk
1 teaspoon Accent, 1 tablespoon soy sauce

Combine corn flake crumbs with Accent, salt and pepper. Mix evaporated milk with soy sauce. Line shallow baking pan with aluminum foil. Dip chicken pieces in evaporated milk, then roll immediately in seasoned corn flake crumbs. Place chicken pieces, skin side up, in foil-lined pans; do not crowd. Bake in a moist oven (350° F.) about one hour, or until tender. No need to cover or turn chicken while cooking. Serve with a mustard sauce, if desired.
YIELD: 4 servings.

Probation Denied For Hoffman, Gets 1-4 Years In Jail

Probation for Carl Hoffman, 27, of Granite City, against Friday afternoon by Judge Joseph J. Barr who set a sentence of four years in the state penitentiary. A notice of intent to appeal was filed immediately, and Hoffman remained free on bond.

Judge Barr granted 10 days in which to file an appeal. Hoffman was found guilty by a jury on April 19, 1963, of the shooting and wounding of a Granite City Army Depot soldier on Sept. 20, 1962, at the former Sherry's Lounge, 16th street and Madison avenue.

He has remained at liberty under bond most of the time as new motions and continuances awaited the final outcome of the case.

Judge Barr based his denial on testimony that while he was seeking probation and was at liberty under bond, Hoffman continued his activities and associations with "police characters" in Granite City.

Among those testifying were Hoffman's wife, who told Judge Barr that she was expecting an addition to the family in May, and his father, who insisted that Hoffman was reforming but that his former associates continued to visit him at his home.

Also on the witness stand were Granite City detectives and a sheriff's deputy, who said Hoffman was with two Granite City hoodlums in an auto which was stopped in the Alton area twice last Aug. 6 at 1:30 and 3:30 a.m.

Judge Barr granted 10 days in which to file an appeal. Hoffman was the first probation applicant to appear before him who had a legitimate job (he works at a local industrial plant) and who had no previous record.

He could not hide behind his parents and that he could not hide behind his job.

Instead of remaining at home and taking care of family responsibilities, the judge noted that Hoffman was found carrying with undesirable characters at all hours of the night in different parts of the county, and by his own admission could give no reason why.

Hoffman, who testified in his own behalf, said he could not remember why he was out late on the morning of Aug. 6, that he did not know why he was in the Alton area and that he did not know why two two-way radio communications were in the auto when it was stopped.

GRANITE CITY PRESS-RECORD

JANUARY 27, 1914
From the local branch of the Women's Christian Temperance Union, of which Mrs. Charles Polles is president, it was learned today that an organization has been effected, to which has been given the work of having the "wet" and "dry" question voted upon at the township elections Tuesday, April 7.

A meeting of protest against the present plans for construction of a sewer system for Granite City has been called for Sunday afternoon at Fleischman-McNary Hall, Cost of the sewer, under plans now in the hands of the Board of Local Improvements, is to be \$410,000.

Five men charged with murder sat in the circuit court room Monday in Edwardsville, under guard of from three to five deputy sheriffs. Cases in which all had been involved had been set for hearing.

Mrs. Harry Faulkner and Mrs. J. H. Dempster were co-hostesses to the Job's Daughters' Mothers' circle Tuesday afternoon at the Masonic Temple.

The meeting was presided over by Mrs. J. C. Sullivan, and 15 members attended. After the business hour, there were card games and the winners were Mrs. Jennie Wilson, Mrs. A. K. Nicol, Mrs. Harry Williams and Mrs. Sidney Magness.

Mrs. William Schooley returned this afternoon from a stay of several months in the west. During her absence, she was the guest of her son and daughter-in-law, Mr. and Mrs. Hugh Schooley in Alliance, Neb., and her son-in-law and daughter, Mr. and Mrs. Marvin Landes in Cheyenne, Wyo., and also visited relatives in other parts of Wyoming and Colorado.

Frank Sappington, city treasurer, with offices on the second floor of the city hall building, has been authorized to accept contributions to the city's Birth Day fund, which is being raised all over the nation to wage a fight on infantile paralysis.

Under the new arrangement this year, a certificate of birth remains in each local community to be used in battling diseases. The other half goes to the national fund for research work against infantile paralysis.

Rev. and Mrs. J. L. Stone, Mrs. Margaret Rutter and Mrs. Vera Owens of the Central Christian Church attended a one-day missionary convention held in DuQuoin.

The Emanuel Phinocchio club was entertained Tuesday evening by Mrs. Clyde Hughes.

Two guests included by the hostess were Mrs. Harold Stewart and Mrs. Bert Houston, and there were three other guests.

proposed extension of its jurisdiction over levee construction and drainage of German Societies, it was decided a convention of the societies will be held in Edwardsville next May.

Ed Dival and Bob Sexton visited Paul Kendall on his father's farm. One of the notable events was a snipe hunt arranged especially for Dival's benefit. After a long hunt, Dival had a duck and awaiting snipe for an hour, the group with him took money and returned.

Wrapping ice in paper has been found to be the cheapest way to keep it from melting, and the use of ship great quantities of ice by carload lots are adopting this method.

Stern Penalties Necessary For Driver Licensing To Have Meaning

A natural reaction might be dismay over the much sterner penalties for driver license violations, since many people have inadvertently let their licenses lapse. But further thought shows the wisdom of heavy and even sterner terms, especially when a person has never bothered to get a license at all or has continued to drive despite a revocation.

No matter how intelligent a law Illinois establishes to ensure that its licensed drivers are capable and responsible people, no pedestrian, driver or passenger is safe if it is easy to flout the license regulations entirely.

Traffic deaths, injuries and property damage have been rising steadily in this state. The trend must be stopped and reversed.

Lower Railroad Assessing May Smooth The Taxing Process

It is good to know that the state has carried out in its approach to railroad assessments. We do not want railroad to shoulder less than their share of the tax burden, but it has been unfair to assess their property on a much higher basis than other property.

In addition to the theoretical aspects, protests have been made up large sums of money and have created continuing uncertainty as to how much of each year's taxes will be available to local governmental agencies. A mandamus suit by school districts throughout Madison is under consideration at present as a result of these protests.

At best, assessing equity is an elusive goal. With state railroad valuations set at 100% of value and most township assessors using 40%, 50% or 60% as a guide, there was no chance for the taxing process to function smoothly.

A man is relieved and gay when he has put his heart into his work and done his best.—Emerson.

Largest figures disclosed by the Granite City Council meeting were not the budget and tax levy ordinance but the monthly receipts relating to Nameoki sewer collections and expenditures.

Poll Tax Ban A Step Forward; Other Changes Are Not As Sound

Ratification of the poll tax ban by three-fourths of the 50 states, South Dakota became the 50th state to do so Thursday, ends an improper restriction on voting in time for the 1964 elections. It affects 45 states that voluntarily have been avoiding such taxation, and Texas, Arkansas, Mississippi, Alabama and Virginia, which still make payments a condition of voting.

There is much less enthusiasm for other election changes proposed by the President's Commission on Registration and Voting Participation. They unquestionably would result in larger voting totals, but not necessarily more informed voting. There would be no assurance of participation by a greater proportion of eligible voters than now.

Recommendations are that literacy tests be eliminated, 18-year-olds be given the franchise, registration be made extremely easy—possibly by a door-to-door canvass—and that citizens be able to register and vote on all offices even though recently moving from another city or state.

It is true that literacy tests have been abused, but they make sense if properly administered. Although most of the commission arguments are based on the "right to vote," no such abstract right is mentioned in the Constitution; the ballot is a privilege.

Democracy could never tolerate voting restricted to a supposedly elite group of intellectuals, rather than the people. But the importance of the word "responsible" in connection with voting cannot be ignored if good government is to prevail.

Press-Record Starting '50 Years Ago' Column

The Press-Record today welcomes the newest addition to this page—a feature new only in the sense that it has never appeared before. It is the 50 Years Ago column, which will begin with the news of Jan. 27, 1914, and move forward through succeeding months and years.

America had not yet entered world war I and the Quad-Cities were only a fraction of their present size in 1914. Yet, similarities with modern times are evident. The "wet" and "dry" issue was much in the news 50 years ago; today, the question is how far public bodies will go in adopting a new "prohibition" on cigars.

There were sewer construction plans, levee matters, court news, regional conventions and election controversies. Even the issue dates coincide, although the publication days were Tuesday and Friday.

Of course, conditions were far different here a half-century ago than in 1964, and the column will spotlight these contrasts in conveying the flavor and atmosphere of the bygone era.

Celebration of the 150th anniversary of Madison county and the current drive to establish a county museum building have focused much public interest on the past. Aided by its unique and complete file of newspaper issues dating back to 1913, the Press-Record will help in bringing local history back to life. The 25 Years Ago column will continue.

Observation, not old age, brings wisdom.

Must Madison Be The Last To Change Tavern Hours?

It was heartening to report that Madison officials have been closing their eyes to the fact that their own law, but it should be noted that such action has not actually been taken.

With an April referendum scheduled in East St. Louis on revision of tavern hours, it would be a case of waiting for the outcome there before taking action in Madison.

We have always felt that there was sufficient leadership and citizen interest in Madison to keep it well ahead of East St. Louis in just about every respect. Must it adopt a "tag along" policy now?

mission to the world."
The "Go In Gospel" The text of the Lord Jesus Christ is to "Go into all the world..."
There are no restrictions on the personal. Each Christian is included in the commission.
For many it may mean the neighbor next door or the next block or somewhere in the vicinity.
Two often we think that our giving into the offering plate takes the place of our giving to those who do not know Christ as their Lord. This is not the case.
Each Christian is under orders to seek the lost, as did our Lord. He held at a time more than ten times the number of the world.
The church is a part of the Gospel.
The offer of reconciliation to God through Jesus Christ involves as one of its essential elements the offer of welcome into the fellowship of those who have received the reconciliation, and who are already enjoying the foretaste of the life of the New Age.
On the other hand, mission belongs to the essence of the church. If churchmanship does not mean fellowship with the Lord Jesus Christ through the Spirit, then it means nothing; and you cannot have fellowship with Him without being committed to partnership in His mission to the world.

Ministers Prepare Guide For Burial Procedures

A suggested guide for burial procedures has been prepared and adopted by the Quad-Cities Ministerial Association, it was announced last week by Rev. Bill Bryan, association president.

Rev. Bryan said the guide is being well received by Quad-City funeral directors and also should prove beneficial to area families. He added that several months were spent in preparing the guide, and that it was the church, hospitals or other worthy causes.

"That the burial service be held as soon as practicable and not be held on Sunday, if possible, is the first recommendation. The church building be considered the proper place for burial service for members of the church."

"That Christian stewardship and wisdom be exercised in funeral expenditures."

"That in addition to flowers, opportunity be given to make a contribution to one of the church, hospitals or other worthy causes."

"That the coffin be closed before the burial service begins to permit the family to meditate upon the message."

"That if rites of fraternal orders or other such associations are requested by the family and are in harmony with the practice of the church responsible for the burial service, such rites should be observed by the church."

"That the burial service be held as soon as practicable and not be held on Sunday, if possible, is the first recommendation. The church building be considered the proper place for burial service for members of the church."

"That Christian stewardship and wisdom be exercised in funeral expenditures."

To the Editor:
Last August, my husband had an auto accident. Being an employee of the railroad, he was transferred to the St. Louis Pacific Hospital. We had auto accident insurance.

They paid for all expenses incurred except they will not pay the hospital expense because we have the same true before. We only want what we paid for privilege of its use.

The excuse is that a new interpretation has been made by the auto insurance firm that they do not have to pay your hospital costs if they are paid by another company.

Readers are invited to contribute to this column. Name and address must accompany each communication, but identity of author will not be revealed unless specifically requested. Letters should be 250 words or less.

Wouldn't you refuse your premium if you were not receiving the same premium as everyone else if they are not going to pay your hospital expenses? We have been offered 50% of the hospital expense, but we didn't pay 50% premiums, we paid 100% premiums, and we make us feel better?

If you have this insurance, find out about this now before you have the same trouble. We would want what we paid for privilege of its use.

Mrs. Harriet Phelps, 2037 Iowa street, was surprised Thursday night when she attempted to start her auto and it wouldn't go.

The reason became evident when the hood was raised.

Between 6 and 8 p.m., a thief who apparently needed plenty of spare parts for his auto stripped the Phelps car of its fan belt, generator and battery. Also taken were two spare tires.

"I don't know what I'd do without my automatic washer," says Mary Louisa Toepke. Other labor-saving electric appliances in her kitchen include a garbage disposer, refrigerator, toaster, food mixer and waffle iron.

"Look at all the electric service we get for only 25¢ a day,"

SAYS MRS. MELVIN TOEPKE, KEWANEE, ILLINOIS

Meet the Melvin Toepke family of Kewanee.

Mel is an electrical engineer for a Kewanee industry. His wife, Mary Louisa, is a modern mother who does far more than just keep house. In addition to teaching kindergarten, she finds time to be a Girl Scout troop leader and teach Sunday School. Two healthy, active children (Patty, 12, and Barbara, 10) complete the Toepke family.

"Thank goodness for my electric appliances," says Mrs. Toepke. "I'd never have time for my outside activities without these time savers!" The Toepkes have 22 different electric appliances in their home. Yet, their average monthly electric bill is only \$7.50. That's just 25¢ a day! According to Mrs. Toepke, electricity is the biggest bargain in her budget.

The Toepkes would like to add several more electric appliances to their home, including a blanket, can opener, knife sharpener and dish washer. Like most American families, they're looking forward to the additional use of time and labor-saving electric appliances.

Patty makes most of the clothes for her dolls on this electric sewing machine. Soon, she hopes to be making some of her own clothes.

Nursing Program Starts March 29 At SWIU

Provisions for nursing education at the Quad-Cities-Eastwardville campus, Southwest Illinois University in March will provide this section of the state with a means to overcome a shortage of professional nurses, it was reported this week from SWIU, Carbondale.

Professor Alonzo Myers, chairman of New York University's Department of Higher Education, in his report following a study of the area's higher education needs, stated: "Lack of nursing education is probably the most serious education situation confronting southwestern Illinois."

He recommended a nursing program for the new SWIU campus to serve the Madison St.

Clair counties region.

For the spring quarter (March 29) when SWIU moves its 10-year-old Department of Nursing from Carbondale to the Southwest Campus, it will offer for the first time a four-year program on one campus.

Courses Available

A bachelor of science degree with a major in nursing will be available to two groups who meet the admission requirements: (1) those who wish to become registered nurses, and (2) registered nurses (admitted with advanced standing) who wish to strengthen their scientific basis for nursing practice, broaden their general cultural background and obtain a baccalaureate degree to qualify for advanced study.

Upon successful completion of the four-year program, those in the first group will be qualified to take the Illinois State Board examination to become registered professional nurses.

Chairman of the nursing program is Mrs. Margaret Shay, who arrived at SWIU this fall from Marshall University (W. Va.) where she was department of nursing chairman. Mrs. Shay holds B.S. and M.A. degrees from New York University and has completed the course work for her doctorate. Appointed assistant director of nursing at Fordham Hospital in New York City in 1938, she became director of education in 1940. Professor Shay is also former dean of the Adelphi University (N. Y.) School of Nursing.

For years, Mrs. Shay said, nursing was defined as little more than the duties required in routine physical care of the sick. Development of the social sciences and the realization of the mental, emotional, and cultural influences on the health, illness and care of individuals, emphasis has shifted from the purely physical aspects of medicine and nursing to the more comprehensive.

"Controlling Ideal"

SWIU's Department of nursing has as its "controlling ideal" the education of students in a broad understanding of their cultural heritage — appreciation of spiritual, aesthetic and moral values in personal, civic and professional living; cultivating of critical and constructive thinking related to general as well as health needs of every individual; and to local, national and international problems.

According to Mrs. Shay, to accomplish these aims the curriculum must: (1) be based on a broad foundation of liberal arts; (2) emphasize the importance of prevention of illness as well as its cure; (3) afford understanding of the physical, mental, emotional and social aspects of health and illness and their interrelationship; and (4) serve as a foundation for study on the graduate level.

Plans Graduate Programs

The department's plans for the future include graduate programs which will prepare nurses for positions as clinical specialists, teachers, supervisors, administrators and researchers in hospitals, schools of nursing, industry, public and private schools, and in public health agencies.

The Department of Nursing was established in 1953 at SWIU as an autonomous unit. The first program was a supplementary one offered to registered nurses. The first class of students in the basic generic program was admitted in the fall of 1957. Students were transferred during their junior year to East St. Louis for 12 weeks in public health nursing and for one year to the University of Illinois in Chicago for education in larger hospitals, until the program in Chicago became too large to accommodate them.

Having the entire four-year program available at SWIU, according to Mrs. Shay, will provide the best possible education for nursing students, "and future students will be more inclined to remain in this area."

Public Health Nursing

The Christian Welfare and St. Mary's hospitals in East St. Louis with a total of 534 beds, will be used for general medicine, surgical, obstetric and pediatric experience. Public health will be offered through the cooperation of the East Side Health District, and psychiatric experience with Renard in the Washington University Medical Center in St. Louis.

There are no restrictions regarding age or marital status, providing applicants meet admission requirements. Students are evaluated on the basis of their mental and physical health, personality and character traits, academic achievement and progress toward professional maturity.

Illinois Department of Mental Health grants in nursing are available to students who are accepted by the department. A limited number of United States Public Health Service grants are available to registered nurses in their senior year of full-time study who have had experience in administration, teaching or supervision or who are committed to one of these positions.

The nursing program is part of SWIU's long commitment to community service. Delbert W. Morris, in his inaugural address in 1949, said, "I believe it is possible to build at Southern Illinois University an institution which will serve the needs of the people, providing at once a seat of learning, and research, and an agency for community service."

Mrs. Shay has five members on her staff. They are Mrs. Mabel Burton, associate professor; Miss Carlin Jimison, Mrs. Norman Lenny, Miss Mary Parker, assistant professors; and Miss Bernice Zich, instructor.

12 High-Ranking Officers To Tour Steel Company

Twelve high-ranking officers, students at the Industrial College of the Armed Forces in Washington, will be given a tour of Granite City Steel Co. Feb. 6.

The group, which is the seventh to visit the plant, will be in the area from Feb. 3 to 7 visiting seven industries that play a major role in the country's national security.

21st-Lee Accident

Autos driven by Thomas H. Stamps, 36, of 4736 Warnock avenue, and Margaret Podgorski, 41, East St. Louis, were involved in an accident at East 21st street and Lee avenue at 8 a.m. Friday. She was charged with running a stop sign. The front of Stamps' car and the right side of the Podgorski vehicle were damaged.

Mr. and Mrs. Jenkins Are Parents Of Daughter

Mr. and Mrs. Thomas Jenkins, 2158 State street, are parents of their second daughter, Mary Elizabeth, born last week at Christian Welfare Hospital, East St. Louis. Her weight was five pounds, 12 ounces. Her sister, Christine Ann, is one year old.

The grandparents are Mr. and Mrs. William Jenkins and Mr. and Mrs. Steve Turgovich, all of Granite City.
